Yes.... We also need to find some NY enviro groups to write Cuomo and tell him how great he is for doing this. I'll search around. Do you know?

You want to take on the issue of asking Ben to get William Thompson and Dinapoli to reinforce the issue with Cuomo, while we get Amnesty and the private funds?

Thanks, SRD

His assistant said RFK is traveling for the next week and she was going to see if he would do the call with Steven while he is traveling. Waiting to hear back.

Yes, but it would be good to have something to show him, then he can edit or do over completely. We also could use it later for somebody else in the human rights world, like Amnesty.

Have we heard anything further from RFK's office regarding this oped? I thought this was the one we were thinking about him drafting, and if so, I'm not sure if he'll want to write it himself.

Subject: Opeds

On opeds, thought I would draft an oped about this, unless you think I shouldn't:

The right to a clean, healthy environmental is a fundamental human right, and nowhere is this more obvious than in Ecuador, the site of the largest environmental catastrophe in our history.

- 1) a human right is more than the right to vote and the right of free speech
- 2) it's also about a person's right to a clean environment, such as clean air to breathe and clean water to drink
- 3) these rights have been denied to Ecuadorians as a result of Texaco and Chevron
- 4) indigenous tribes destroyed
- 5) severe poverty, no health care, no water, no way to make a living because of the damages to the rainforest
